

Corporate Profile

Guideline of our works

YAMAMURA INTERNATIONAL (THAILAND) CO., LTD.

Corporate Philosophy

Business rests on Our People

The Yamamura Group will encourage its employees to make the most of their personal strengths and capabilities in order to create a vibrant and positive corporate atmosphere.

Quality is the Key to our Business

Quality is what supports our business.

We will be constantly on the lookout for ways to serve our customers and will work to offer them products and services that fully satisfy their needs.

There is no Future without Innovation

We will boldly take on the challenges of this changing world instead of dwelling on current success, and we shall continue to raise our high standards as we forge a new future.

The Meaning of Heart & Technology

1. The Heart of a Merchant-building trust among customers.
2. The Technology of a Craftsman-using skill and know-how to create products of true distinction.

Business Model

- Meet the customer's request with flexibility and wide range of product variation
- Provide the products keeping certain degree of quality level
- Total solution from machine, packaging material and filling set up
- Matching with customer's request and supplier's excessive inventory
